You remain local marketing masters (organization of events, networking, etc.)

WHAT CUSTOMERS SAY ABOUT US

I think one of the strengths of XLG and Nalios is that they are always challenging themselves, striving to stay as close as possible to Odoo Standard so that they can evolve over time. This has enabled us to put really good processes in place, with Odoo working well, from quotes to invoicing, and even accounting, which will be in the same ERP. Write a quote from one of your customers here. Quotes are a great way to build trust in your products or services.

Laurence Colot • IT Project Manager at XLG&CO SA

A major player in the energy sector, Groupe Atlantic chose Odoo to digitise its processes, from sales to invoicing, including project management, subscriptions and after-sales services. Thanks to customised Odoo applications, the company is now optimising its operations and improving the efficiency of its teams.

Edith Vanden Eynde • Director of Processes and Commercial Efficiency Projects at Groupe Atlantic

Data accessibility has been a game changer for us: it facilitates communication, standardises information and has enabled us to become much more efficient. We used to spend a lot of time encoding/re-encoding things. Now we focus more on the real added value of each person. Everything is visible, there are no more grey areas.

Thibault Colon • CEO of Colona

WHAT FRANCHISEES SAY ABOUT US

When Camille and I launched the Nalios agency in Leuven, our experience at Odoo helped us integrate quickly. The opening process was transparent and aligned with our ambitions, and Nalios' reputation and marketing tools gave us immediate visibility in the Flemish market.
Day to day, I benefit from strong support, with resources and guidance that help me make fast decisions while keeping full entrepreneurial freedom. This balance between support and autonomy makes the whole adventure truly rewarding.
Nils Van Oosten • Director Nalios Leuven

Based in the French West Indies, I chose Odoo as the ERP of the future for our territories. While searching for a reliable partner for a major project, I discovered Nalios and was immediately convinced by their franchise model and customer-centric approach. Their expertise and commitment to making every customer a priority confirmed my decision. Today, we support businesses in Guadeloupe, Martinique and French Guiana with tailored solutions, backed by the Nalios network and its proven methodology.
Carl Reynal • Director Nalios Antilles-Guyane

What convinced us to join Nalios was our strong confidence in Odoo and the group's mindset: quality, commitment, and a hands-on attitude. The launch support was excellent, and we quickly chose to build our autonomy — a key strength of any solid network. Today, we run the agency dynamically across sales, project delivery, and events, always aiming to move things forward through rigorous, collective work.
Jean-Baptiste Paquentin • Director Nalios Geneva
